at Tomlinson Drafting Services
Specializing in Wide Format Prints & Scans

901 Alloy Drive (corner of Central Ave.),
Thunder Bay, ON, P7B 5Z8

From letter size to wide format, we'll handle all of your printing and scanning needs.

Our experienced staff will ensure that your drawings print correctly and that your scans are accurate down to the smallest details.

Our wide format printers and scanners provide superior image quality!

Drawings today are complex, with critical information that must be printed and scanned correctly. We always ensure that every graphic, pattern and detail is generated correctly.

Print it BIG! . . . pictures, patterns, banners, maps and more.

Besides printing architectural plans, we have had great results with enlarging photographs and banners for special occasions, patterns that need to be scaled up, enhancing maps for easier reading or colouring and so many other inventive ideas.

HOURS: Mon – Fri 8am – 5pm

covers, coloured or clear: \$1.00 - \$2.00

Scanning Services

Are you running out of space for all those valuable drawings that you spent so much time producing? Tired of searching through cabinets for drawings that are fast becoming yellowed and creased from all the handling they go through? Worried about the ever rising cost of office space to keep these drawings?

With our scanning services, you will have:

- Fast, easy retrieval of your drawings on your computer.
- An electronic back-up of your drawings.
- A file that can be distributed to others in your office, or outside the office via email.

What we can scan: Construction drawings, documents, artwork, hand-drafted drawings, maps, family trees, posters, nearly anything that can go through a roller system.

Space saver - electronic files take up very little room – you can fit hundreds of scanned 24"x36" drawings on a single CD.

Print convenience - print at home or send your electronic files to our copy shop for printing, saving time in waiting for copies to be done.

Creativity - we can print your file to a different size than the original to suit your needs. We can also add to or edit your electronic file using various computer programs.

Scanning Quality

A properly scanned drawing or document can be invaluable. We have four different wide-format scanner models to provide the best output for you.

Formats we typically scan to are:
pdf, tiff or jpeg – from letter size up to 39" wide, in monochrome or colour.

File size and file quality: The dpi default is 300dpi, but can be 200, 400 or 600dpi. As colour scans are usually large files, the 200dpi setting can be used to bring down the file size with negligible difference, or bumped up if you need superior quality.

File Disbursement: We can send the files to your memory stick, dropbox folder or email address, or burn to a cd or dvd. The digital files are kept at our office for a short period, giving you time to archive them in a manner that works best for you.

Price for Scanning Services

LARGE format	Up to 42" length	Over 42" length
black & white	5.00 ea	7.00 ea
colour	7.00 ea	10.00 ea

SMALL format	Letter size to 11"x17"
black & white	.50 each
Colour	.50 each

File Disbursement	
email or copy to USB or dropbox	4.00 per instance
burn to cd or dvd or upload to your .ftp site	6.00 per instance

Banker Box Scanning

We provide a discounted price for large volume document size scanning. Our price is set at \$0.25 per sheet. Our normal charge for document sheet scanning is .50/sheet, so this is a great discount.

The scans are done by senior personnel only with the assurance of full confidentiality.

What you would receive from us:

- quality scans in .pdf format
- files OCR'd if requested at no extra charge
- bookmarking if requested at no extra charge
- files burned to DVD
- files securely deleted from our scanner units
